CENTRAL VACUUM PUMPS

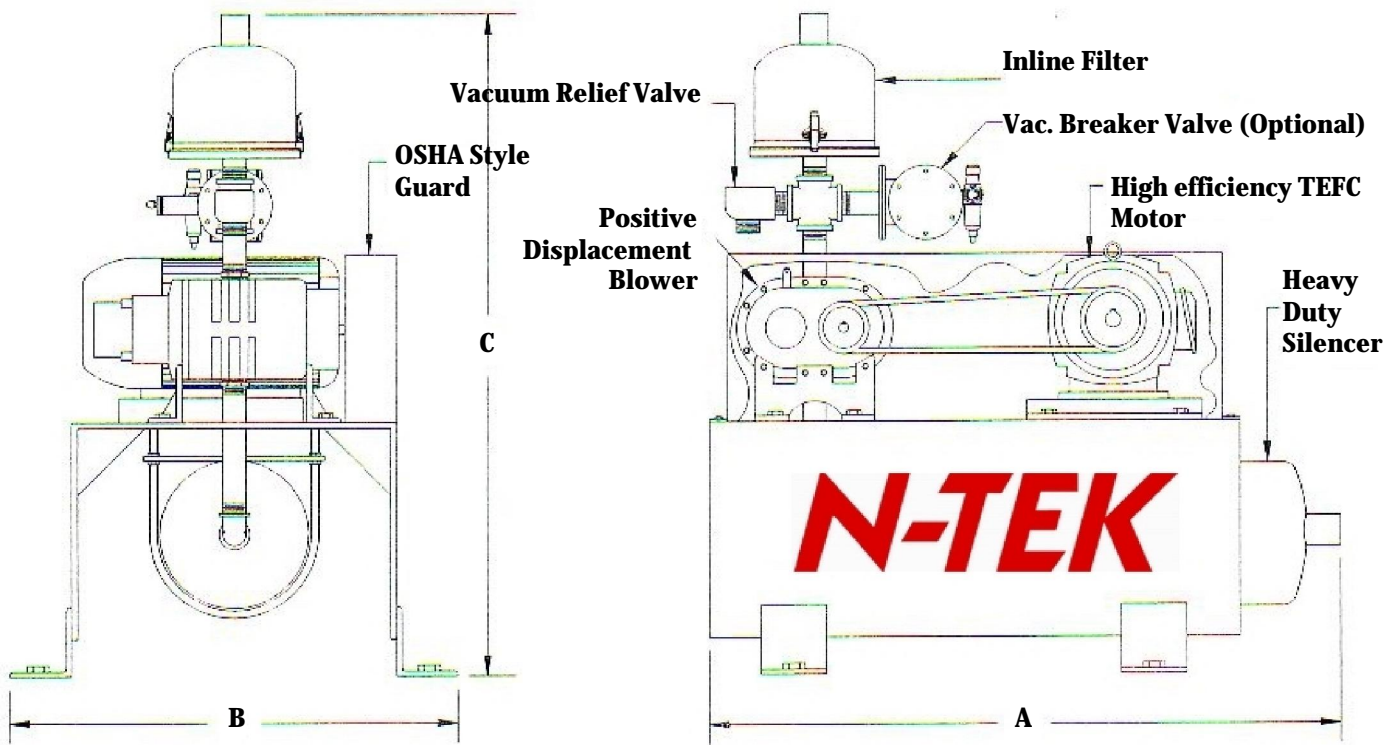

10 HP VACUUM PUMP

N-Tek's highly efficient central vacuum pumps are built with components of the highest quality and designed to provide years of trouble free operation. Each unit is complete with:

- High efficiency TEFC motor
- Rotary positive displacement industrial blower.
- Cartridge element in line filter for maximum pump protection.
- High attenuating heavy duty industrial discharge silencer. (Sound enclosure available)
- Positive acting vacuum relief valve for maximum pump protection
- V-Belt Drive with fully enclosed OSHA type guard.
- Magnetic motor starter with overload protection.
- All mounted on a sturdy base.
